

Three-Layer RPG Continuity Master Handover Document

Prepared for the next chat: vibe-coding a web-based HTML continuity app
Windows Chrome / Android Chrome — single-file MVP

Generated for	Josh Parris — OG Josh continuity / Alphie J. Roane player
Document purpose	Single-document handover that captures every layer of the continuity so a new chat can build the app without losing canon
Layer 1 — OOG	Real Josh using Claude. Light coverage.
Layer 2 — OG Josh	Parallel-timeline Josh in Dubbo with Marcus, Ben, Talia, Romi. Full coverage.
Layer 3 — IG	Storm King's Thunder campaign run by Marcus. Full coverage.
Current OG anchor	Saturday 9 May 2026 morning, 92 Lakeside Circuit, after Friday hang
Current IG anchor	Northfurrow's End, Goldenfields, late night, post-apology to Wren (Bookmark 9)
Source documents folded in	OG Josh Operational Dossier; SKT Bookmarks 2, 3, 4, 6, 7; Three-Layer RPG Handover; recent OG Josh / Romi Friday hang scene work

0. How to Use This Document

This PDF is the single source of truth for a three-layer continuity system. It is intended to be uploaded or pasted into a new chat where the task is to vibe-code a continuity dashboard app. It also functions as a standalone reference for resuming any of the three layers in conversation.

Reading order suggestion

- If you are an AI assistant taking over: read sections 1, 2, and 11 (style/agency rules) first. Then load Layer 2 or Layer 3 as needed.
- If you are coding the app: skip to section 12 onwards for app architecture, schema, seeded data, and the implementation prompt.
- If you are resuming a scene: jump to section 5.7 (OG current anchor) or 8.10 (IG current anchor) for the appropriate resume prompt.

Continuity safety

The central design risk is **layer bleed**: a fact from one layer becoming accidentally true in another. Every fact in this system has a layer tag and a canon-status tag. If you are unsure where a fact belongs, default to **unresolved** rather than guessing.

1. Executive Summary

Three nested storytelling layers. Each has its own time, characters, rules, and current state.

Layer	Name	Reality frame	Most important current state
L1	OOG real life	Real Josh using Claude in the real world	Minimal focus. Used mainly for current user requests, artifact creation, and meta direction.
L2	OG simulated table	Parallel-timeline Josh Parris in Dubbo with friends Marcus, Ben, Talia, Romi	Friday night hosting has rolled into Saturday morning. Romi and Josh crossed a romantic line privately. D&D is at 1pm.
L3	IG in-game	The fictional D&D world inside Marcus's Storm King's Thunder campaign	Party is at Northfurrow's End, Goldenfields. Alphie is asleep after his apology to Wren. No attack has begun.

Why three layers matter

Without explicit layer separation, fictional choices in L3 can drift into the L2 table dynamic, and L2 social dynamics can drift into the real user's life expectations. The app must enforce separation. Conversation continuations should also enforce it.

One-line snapshots

- **L1 (OOG):** Josh wants a continuity dashboard so the layers don't collapse into each other.
- **L2 (OG):** Saturday morning after a wild but bounded Friday hang. Josh and Romi are in a private romantic/intimate arc. Tuesday coffee and group normality matter. Breakfast first, D&D at 1pm.
- **L3 (IG):** Goldenfields appears safe and confident at night, but the party has seen cracks: Shalvus, weak leadership, complacency, and source-canon danger behind the screen.

2. Non-Negotiable Continuity Rules

These rules apply across all layers and override anything else in this document. They were built from repeated table corrections and are load-bearing for the project's tone.

2.1 Player agency rules

- Do not make choices for Josh's controlled characters. In L2, Josh controls OG Josh. In L3, Josh controls Alphie J. Roane. The narrator/DM frames scenes, consequences, and NPC reactions but Josh chooses words and actions.
- Do not make choices for other players' PCs either. Marcus gives pressure, ambiguity, temptation, and trade-offs. Talia, Romi, and Ben decide what Wren, Kella, and Dorrin do.
- Romance is opt-in only. No PvP. No betrayal arcs unless every affected player opts in.
- When NPCs speak, only present/involved characters speak. Don't have NPCs comment on private scenes they could not have seen.

2.2 Source vs canon rules

- Storm King's Thunder is the sourcebook of record for L3.
- Strict 2014 D&D 5e RAW only. No 2024 rules unless Marcus and Josh explicitly agree to convert.
- Always tag a fact with its **canon status**: source-canon, table-canon, player-choice, inferred, unresolved, retconned, DM-private.
- Separate DM-private source structure from player-facing table narration. Don't spoil attack triggers, monster routes, or encounter mechanics in Marcus's player-facing voice.
- Where Marcus has improvised, those improvisations are flagged as DM additions, not source. Where source contradicts an improvisation, source wins on request.

2.3 Tone and style rules

- Style correction switch: '**less prestige drama mode please**'. Means less polished dialogue, fewer perfect one-liners, more ordinary pauses, real awkwardness, stronger consequences.
- Do not call Josh 'mate'.
- Natural Australian English. Concise by default. Warm, honest, practical, emotionally attuned.
- Don't make Alphie/OG Josh the only flawed character; don't assign flaws to other PCs either — let situations reveal flaws through player choice.
- M-rated, serious but not grim. Wonder and danger both. No graphic torture. No on-screen harm to children. No graphic sexual content (fade-to-black). Avoid body horror (Talia is squeamish at the table).
- Marcus's voice: calm, grounded, slightly dry, willing to acknowledge mistakes openly.

2.4 Safety rules

- '**Pause**' is the safety word. Anyone says pause, the scene stops.
- Don't fudge dice to save characters. Don't go out of the way to kill them. The world responds honestly.
- Don't use alcohol as an automatic courage/romance escalation device. Realistic guardrails matter: food, water, consent, transport/sleepover safety, next-day consequences.
- Don't bring up sensitive memories or content unprompted; let the user surface them.

3. Layer 1 — OOG Real User

Light coverage. Included only for context that affects how the app should be built and how the assistant should respond.

Field	Value
Real-world model anchor	Conversation took place around early May 2026; system current date may differ from fictional anchors.
User preference	Natural Australian English. Concise by default. Warm, honest, practical, emotionally attuned. Faith and family context matter.
Avoid	Calling user 'mate'. Overexplaining. Taking away player agency. Excessive prestige drama. Heavy formatting in chat.
Artifact goal	Vibe-code a web-based HTML app that manages the three layers and runs well on Windows Chrome and Android Chrome.
Distinction from L2	Real Josh shares the name and a few small threads with OG Josh but is otherwise a different person with different family, job, location-history, and circumstances. Do not collapse them.

4. Layer 2 — OG Josh: Identity, Work, Wealth

4.1 Identity

Field	OG Josh value
Name	Josh Parris
Age	36
Status	Single, never married, no kids
Address	92 Lakeside Circuit, Dubbo NSW 2830
Cat	Bast — four-year-old grey tabby, RSPCA rescue, indoor-mostly. Sleeps on the rumpus couch by day, foot of the bed by night. Tolerates guests; ignores most of them.
Vehicle	2022 Ford Ranger XLT (fully maintained as part of his package). Also has private use; full wealth dossier may include a private ute.
Faith	Christian. Attends Dubbo Presbyterian most Sundays at 10am. Bible and journal in the morning with coffee. Faith is core but quieter than family-Josh's — chosen weekly with no family rhythm carrying it.
ADHD	Present. Anxiety load is lower than family-Josh due to no marriage/kid stressors, but loneliness is the trade-off.
Relocated to Dubbo	Moved from Bendigo in 2017 for a junior policy role and never left.
Main emotional trade-off	Lower family stress but loneliness is the cost.

4.2 Work and wealth

OG Josh's government job is not his whole financial reality. The fuller wealth dossier reframed him as quietly wealthy with multiple income streams, a major inheritance, family wealth in the background, a game/app studio, and an AI startup.

Area	Details
Government role	Senior Stakeholder Engagement Coordinator — Western NSW Region, Department of Regional NSW. Started early 2024.
Official package	Approx. \$170k total package: \$145k base, \$17.4k super, fully maintained Ford Ranger XLT, phone/laptop allowance ~\$2.4k/yr.
Take-home	~\$8,800/month after tax (~\$2,030/week).
Working pattern (when working)	3 days WFH, 2 office. Officially 9–5. Real core work hours: ~11–2. Director in Sydney, met twice. KPIs unfalsifiable.
Current work status	On forced leave until mid-June 2026 because annual leave balance hit the cap.
Guilt level	Persistent, low-grade. Managed by aggressive generosity and doing the work properly when it matters.
Parris Tech Services	AI-automated game/app development studio. Browser games, Roblox/Fortnite Creative contracts, small WoW work, tooling SaaS. Roughly \$20k/month net.
Currawong AI	Australian-sovereign AI startup for regulated industries. Josh is CTO-ish / product / architecture / regional-government relationship lead. 40% equity.
Inheritance	\$500k from great-uncle Mal landed this week. Not fully emotionally processed.
Net worth	~\$5.5m in the updated picture, much of it illiquid/paper/business equity. Earlier dossier figure was ~\$1.05m on the gov-only path.
Financial theme	Not survival risk. Drift risk. Deployment, meaning, structure, loneliness, generosity.

4.3 Properties (gov-only baseline dossier)

- **PPOR — 92 Lakeside Circuit:** Bought Feb 2024 for \$1.35m (rolled equity from West Dubbo sale ~\$780k). Current value \$1.65m+. Mortgage ~\$780k remaining @ 6.1% = ~\$5,100/month. 4 bed, 3 bath, 3 car, pool, study, rumpus, 1,032m².
- **Investment — 26 Glenshee Close:** Bought Nov 2020 for \$510k. Current value \$750k. Mortgage ~\$340k = ~\$2,250/month. Rent \$620/week. Currently vacant from late April 2026. Cashflow ~neutral when tenanted.

4.4 Monthly budget (gov-only baseline)

Category	Amount
PPOR mortgage	\$5,100
Rates, insurance, water (PPOR)	\$480
Investment shortfall (own portion)	\$200
Utilities (electricity, gas, internet)	\$380
Groceries	\$700
Fuel (private use, ute)	\$180
Bast (food + vet sinking fund)	\$80
Streaming, subscriptions	\$90
Eating out, coffee	\$400
Hobbies (D&D, books, minis)	\$300
Tithe / charity	\$700
Personal (clothes, haircuts)	\$200
Travel sinking fund	\$400
Generosity / shouts (table, friends)	\$300
Total spend	~\$9,510
Take-home	~\$8,800

Slightly over each month — dips into buffer by ~\$700–1,000. Knows. Considers it the cost of not being miserable. Doesn't tighten because the surplus from rent, bonuses, Parris Tech distributions, and lower months balances out.

4.5 Savings / net position (gov-only baseline)

- Offset against PPOR: \$42,000
- ETF portfolio (VAS/VGS, monthly DCA): \$185,000
- Emergency fund (HISA): \$25,000
- Super: \$310,000
- Net worth on this baseline: ~\$1.05m (after mortgages)
- Note: this is the dossier baseline. The richer wealth picture (Parris Tech + Currawong + inheritance + family wealth) brings net worth to ~\$5.5m and changes the texture but not the daily rhythm.

5. Layer 2 — OG Josh: House, Schedule, Manifesto

5.1 The house: 92 Lakeside Circuit

The house is a major L2 setting. It should not be treated merely as a rich-person flex. In the OG Josh manifesto it exists for hosting, friendship, community, and making loneliness less private.

Room / Area	Function in continuity
Master bedroom	Josh's room. Romi later asked to sleep there with him after Friday night.
Guest bedroom	Properly made-up guest room; Ben uses a guest sleep space during the Friday sleepover.
Library	Floor-to-ceiling shelves, armchairs, reading lamp. Significant to Josh's identity and writing life.
Writing room	Private novel room, usually locked when guests stay. J.A. Roane pseudonym work lives here.
Study	Government work, Currawong AI work, whiteboard. Used Friday night for the Dubbo-as-D&D-setting brainstorming.
Rumpus / D&D room	Custom 6-person table, minis, terrain, RPG books, projector, whiteboard. Social heart of D&D hosting.
Kitchen / dining / family	High-end cooking and coffee setup. Friday dinner hub. Saturday breakfast tour.
Patio / pool / spa	Night pool plunge, spa debrief, hospitality setting, romantic tension with Romi.

5.2 Kitchen setup (Saturday-morning character reveal)

The kitchen became a Saturday morning character-reveal location. Josh overexplains equipment. Friends tease him. The kitchen is both genuinely useful and a symbol of over-capacity, over-hosting, and craft.

Category	Key items / continuity use
Coffee	Roasting Plant-style Javabot explanation; La Marzocco / lever espresso concept; grinders; pour-over kettle. Josh overexplains; Romi says no footnotes before breakfast.
Cooking	Molteni-style professional range; Gaggenau ovens; modular cooktop; powerful range hood.
Cold storage	Sub-Zero fridge; EuroCave wine storage; ice maker / nugget ice philosophy.
Cleaning	Miele dishwasher / washer / dryer. Practical household competence.
Bench appliances	KitchenAid / Ankarsrum, Vitamix, Robot Coupe, Zojirushi, chamber vacuum sealer, etc.
Running joke	After all this gear, Talia asks whether they're having cereal for breakfast.

5.3 Daily schedule — forced leave (current)

Time	Activity
7:00	Wake. Coffee. Bible + journal. Bast on lap.
8:00	30-min walk along the river path.
8:45	Breakfast (oats, fruit, no dairy).
9:30	Reading / writing block. Currently a Stoic-Christian devotional + a Kingkiller reread.
11:00	D&D prep, worldbuilding, mini painting, or side projects.
12:30	Lunch (usually solo).
13:30	Errands, gym (Plus Fitness Dubbo), home admin.
15:00	Open block — coffee with Marcus or Ben, call Lucas, swim, garden.

Time	Activity
17:30	Dinner (cooks 4 nights, eats out 2, leftovers 1).
19:00	Reading, light gaming, hosting, TV.
22:00	Wind-down: shower, no screens, journal.
22:45	Sleep.

5.4 Daily schedule — working weeks

Time	Activity
6:30	Wake, coffee, Bible, walk.
8:30	Breakfast, settle in.
9:00	Emails, 'stakeholder mapping'.
11:00	Real work block (quarterly report, comms).
12:30	Long lunch (90 min, no one counts).
14:00	Calls, half-meetings, drive somewhere if bored.
16:00	Wrap up.
17:00	Gym or home.
18:30	Dinner.
20:00	Hobbies, reading, D&D prep.
22:30	Sleep.

5.5 Weekly rhythm

- **Mon:** WFH. Quiet start.
- **Tue:** Dubbo office. Lunch with a colleague.
- **Wed:** WFH or fortnightly regional drive (Wellington, Narromine, Mudgee).
- **Thu:** Office.
- **Fri:** WFH technically. Light day.
- **Sat:** D&D 1:00–4:30pm at the gaming store on Macquarie. Dinner often follows.
- **Sun:** Church 10am. Slow lunch. Reading. Lucas call every second Sunday.

5.6 The Manifesto (10 principles)

These are OG Josh's stated organising principles. They double as character constraints for L2 narration.

- **1. The job is not the point.** The salary is a gift, not an identity. Don't perform busyness. Do the work well when it matters. Don't pretend it's harder than it is.
- **2. Generosity offsets guilt — and is also just good.** If the role pays absurdly for what it asks, redirect the surplus. Tithe properly. Shout the table. Cover Ben's books without making it a thing.
- **3. Single is a season, not a deficiency.** Don't wait. Don't pine. Don't rush. Live the life now. If a partner comes, let them join a life that's already running.
- **4. Body before brain.** Walk, swim, lift, sleep. The headaches and chest tension are loneliness and inactivity wearing different costumes. Move daily. Sleep before midnight.
- **5. House is for hosting, not flexing.** The pool, spa, pool table, four bedrooms — tools for community, not status. The house earns its keep when it's full.
- **6. Faith stays first, even quieter.** No family rhythm to carry it, so it has to be chosen weekly. Don't drift. Sundays matter. The journal stays.

- **7. Hobbies are not productivity.** D&D, reading, painting, worldbuilding — not 'side projects'. Don't monetise. Don't optimise. Let them be useless and good.
- **8. Friendship is the long game.** Marcus, Ben, Lucas — 20-year friendships in the making. Show up. Reply. Drive over.
- **9. Don't let comfort kill curiosity.** The job is easy, the house is nice, the danger is going dim. Read hard things. Have hard conversations. Travel somewhere uncomfortable once a year.
- **10. Be honest about loneliness.** It's the real cost of this life. Not denied, not over-corrected for. Named, sat with, and not used as an excuse to make bad decisions.

5.7 The Handbook (operating rules)

Hosting:

- House open to the D&D table any time with 24 hrs notice.
- Spare rooms always made up.
- Stocked: NA beer, real beer, wine, snacks, good coffee.
- No one drives home if drinking — couches, beds, lifts in the morning.
- One open-house dinner per fortnight is the goal.

Money:

- Tithe 10% off the top, monthly, on payday.
- DCA \$2,500/month into ETFs.
- Offset gets any surplus.
- Emergency fund is for emergencies — boredom isn't one.
- One major discretionary buy per quarter, two-week wait before pulling trigger.

Time:

- One unscheduled day per week minimum.
- No work email on phone.
- Phone in kitchen drawer after 9pm.
- Sabbath: Sunday afternoon to Monday morning.

People:

- Reply to texts within 24 hrs.
- No ghosting, even when conversations get hard.
- One deep call per week minimum (Lucas, Marcus, family).
- Say yes to invitations by default unless there's a real reason not to.

Health:

- Walk daily, non-negotiable.
- Lift 3x/week.
- GP every 6 months.
- Therapy fortnightly (Dr K, Dubbo) — keep going even when 'fine'.

- Caffeine cut-off: 11am.
- No dairy.

6. Layer 2 — Social Cast

The L2 cast is a small inner ring of friends with rich dynamics. The Friday hang exposed the full texture of these relationships.

Person	Role	Current social/emotional position
Josh	Host. Player of Alphie. Wealthy / single / creative / biohacker / entrepreneur.	Trying to stop over-hosting and be loved without performing. Strong chemistry with Romi. Generous, magnetic, a bit much.
Marcus	DM. 38. IT manager. Married with two kids. Josh is godfather to one. Best mate in Dubbo.	Not present at Friday hang due to family dinner. Receives encouragement video. Next D&D session at 1pm Saturday.
Ben	32. Vet at Macquarie Vet. Single. Quiet, deep friend. Plays Dorrin.	Stabiliser. Played tennis with Josh recently. Stayed over after Friday. Offers grounded feedback and water.
Talia	29. Primary school teacher. Partnered. Sharp humour. Plays Wren.	Social pressure valve. Calls out too-intense moments. Brought dairy-free dessert. Sleepover on couch / rumpus.
Romi	35. Paralegal. Divorced, no kids. Worldly warmth. Plays Kella.	Romantic interest for Josh. Direct boundary-holder. Stayed in Josh's room Friday night. They became consensually intimate. Tuesday coffee remains the real follow-up.
Bast	Cat. Grey tabby.	Judgemental roaming neutral. Socially powerful by doing almost nothing.
Lucas	Back in Bendigo. 15-year friendship.	Fortnightly Sunday call. Off-screen for Friday.

Middle ring

- Church people (half a dozen names).
- Work colleagues (pleasant, not deep).
- Gym regulars (nodding only).
- Two old La Trobe mates (annual catch-up).

Outer ring

- Parents in Bendigo (fortnightly call).
- Sister (monthly).

6.1 Friday house hang — full timeline

Time	Event	Continuity notes
5:30pm	Josh waits with red wine, tennis on Foxtel.	Prepared but trying not to over-host.
5:49pm	Ben arrives.	Brings snacks. Gets the normal human tour. Helps make punch.
6:08pm	Talia arrives.	Dessert. Tired from school. Quick tour. Safe punch. Teacher banter.
6:22pm	Romi arrives.	Work clothes. Hungry. Wants antisocial first ten minutes. Reacts to house / library / D&D room.
6:30–7:15pm	Dinner.	Mediterranean-style meal. Dairy-free. Wizard punch and normal punch clearly labelled.
7:15–9:15pm	Cockroach Poker / dessert / Truth or Confession.	Banter, flirting, Josh admits loneliness. Romi challenges him to try less.
9:45–10:00pm	Telephone attempted.	Flirt game gets too suspicious. Talia bans it from escalating.

Time	Event	Continuity notes
10:00pm	Pool plunge.	Ben enters fully clothed. Spare clothes distributed. Romi wears Josh's La Trobe shirt and board shorts.
10:15–10:45pm	Pool flirting and group splash chaos.	Romi/Josh deep-end moments. Talia/Ben splash war. Chemistry grows but stays in group.
11:15pm	Dubbo-as-D&D whiteboard in study.	Romi invents a magistrate's clerk character. Indirect flirt via character-building. Ben eats dessert.
Midnight	Hide-and-seek.	Ben found in laundry. Romi hides in pantry. Pantry moment: Josh chooses Tuesday rather than kiss in pantry. Romi kisses cheek near mouth.
1:00am	Spa.	Tea, not punch. Quiet adult conversation. Romi/Josh knees touch under water. No performance.
1:35am	Sleep plan.	Ben and Talia settle into separate sleep spaces. Romi asks to sleep in Josh's room.
~3:00am	Romi wakes.	Asks to kiss Josh. Consent established. Private intimacy through to morning.
Sat morning	Morning after.	Romi wants a simple plan: no public announcement; Tuesday coffee still matters. Kitchen / coffee tour follows.

6.2 Key relationship state — Josh + Romi

They have strong chemistry. They chose intimacy consensually overnight. Romi is not treating this as casual nothing, but also not as instant relationship status. Tuesday coffee remains the sober, public, adult follow-up. The app should represent this as: **romantic arc active; private intimacy occurred; status unresolved; coffee Tuesday planned**. Do not auto-label them as a couple.

Boundary / principle	Current expression
No pretending	Josh does not want to pretend nothing happened.
No announcement	Romi does not want a hallway declaration or breakfast-table performance.
Tuesday matters	Coffee on Tuesday, away from the house, no alcohol, no hosting, is the real test.
Lead hallway part	Josh agreed to let Romi lead the public handling in the house.
Adults with consequences	D&D is at 1pm Saturday. They must function socially as a group.

6.3 Important meta / group-chat notes

- The group sent Marcus a short encouragement video during Friday night. Talia, Ben, Romi, and Josh each gave about 20 seconds of appreciation. Marcus replied warmly and noted feedback: fewer overly poetic NPCs, more moral complications, keep Oren messy, maps good. Josh accidentally said 'sneganigans'; Marcus joked it may become canon.
- Romi previously warned Josh not to turn generosity into buying affection or funding everyone's hobby life.
- Ben and Talia repeatedly helped keep the night safe and grounded by encouraging water, dessert, and less intense games.
- The Friday hang developed into sleepover because people drank / swam / spa'd late. Nobody should drive if impaired.

6.4 Realism notes from social/safety review

- Drinking levels at peak:** Josh ~3–4 standard drinks plus food and water; Romi ~2–3 diluted and paced; Ben ~2 alternating with water; Talia near sober.
- Healthy safeguards already in scene:** Non-alcoholic punch present; water visible; Ben and Romi push water; Romi explicitly refused romantic progression 'after wizard punch'; nobody drives if drinking.

- **Josh's growth edge:** The strongest moments were not the punch, games, or big house tour. They were — admitting he's lonely, accepting Romi's 'try less', choosing water, sitting on the rug instead of performing host mode, letting the room become ordinary.
- **Romi's real interest is not in Josh's wealth, house, hosting, or verbal intensity.** She is testing whether he can stop performing, tolerate being challenged, hear 'not now' without sulking, be attracted without escalating, let a private thing stay private.

7. Layer 2 — Current Scene Anchor

7.1 The L2 resume point

Saturday 9 May 2026, morning at 92 Lakeside Circuit. Josh, Romi, Ben, and Talia are awake or waking. Romi and Josh emerged from Josh's room/shower area and are trying to do normal without lying or announcing. Ben is trying to understand the coffee machine. Talia is on/near the couch with blanket energy. Josh began an elaborate kitchen / coffee tour and is about to cook a simple breakfast because D&D is at 1pm.

7.2 What's true at the anchor

- Romi has said: Tuesday coffee still happens. Sober. Somewhere with bad lighting and other people.
- Josh has said he's happy for Romi to lead the public handling.
- Friends may infer what happened, but the realistic tone is awkward normality, not dramatic confrontation.
- Ben and Talia are tired, amused, and likely to tease gently if the room gets too performative.
- Marcus is not at the house but will see them at D&D later, unless someone updates him first.
- D&D session 9 is at 1pm at Dave's gaming store on Macquarie.

7.3 Open L2 threads to track

Thread	Status / next action
Josh / Romi Tuesday coffee	Planned. Needs to remain sober, public-ish, no performance. Major relationship follow-up.
Saturday D&D after sleepover	Everyone may be tired. Marcus may notice vibes. Maintain group friendship health.
Josh hosting / housemate idea	Romi offered friend-level common-sense advice. If pursued, use proper tenancy channels.
Josh inheritance / Uncle Mal grief	Not processed. Potential future vulnerable coffee with Marcus or Lucas.
Currawong / Parris Tech / gov job drift	Forced leave could trigger life planning. Don't flatten into money wish-fulfilment.

8. Layer 3 — In-Game: Storm King's Thunder

8.1 Campaign overview

Field	Value
Campaign	Storm King's Thunder
Ruleset	Strict 2014 D&D 5e RAW only. No 2024 rules unless explicitly converted at table.
DM persona	Marcus, played by Claude/ChatGPT. Calm, grounded, slightly dry. Acknowledges mistakes.
Real-world venue	Local games store in Dubbo, NSW, owned by Dave (ex-teacher).
Schedule	Saturdays 1:00–4:00pm play. Pack up by 4:30pm. Three-month commitment through end of July 2026, then review.
Group chat	WhatsApp 'Storm King's Dubbo'. Lore/downtime questions go direct to DM.
Likely Realms year	1491 DR (standard SKT timeline). In-fiction current date: Second of Eleint, 1493 DR per earlier checkpoints — reconcile if needed.
Current place	Northfurnow's End, Goldenfields.
Current in-game time	Late night, roughly 10:30–11:30pm, after a long Goldenfields day.
Current party state	Asleep in shared room at Northfurnow's End after Alphie's quiet apology to Wren.
Next likely IG move	Next morning unless Marcus triggers a night event. Attack timing / source structure must not be spoiled.

8.2 Hard DM rules (load-bearing)

- **Strict 2014 5e RAW only.** No house rules, no homebrew, no 2024 rules, no feats unless source grants them, no multiclassing unless a player asks and Marcus agrees.
- **Storm King's Thunder source material is canon.** Marcus's improvisations are flagged as DM additions, not source. Where source contradicts an improvisation, source wins on request.
- **Don't roll for Josh.** He rolls his own dice and reports results. DM rolls for NPCs and monsters.
- **Don't fudge dice to save characters, and don't go out of the way to kill them.** The world responds honestly.
- **Two-minute lookup limit.** If a rule isn't obvious in two minutes, make a ruling, note it, fix later if wrong.
- **'Pause' is the safety word.**
- **Tone:** M-rated, serious but not grim. Wonder and danger both. No graphic torture. No on-screen harm to children. No sexual content beyond fade-to-black. Avoid body horror (Talia is squeamish).
- **No PvP violence.** Romance only by mutual player opt-in.
- **Milestone levelling.** Level 1 should pass quickly. Level 3 expected by end of opening arc. Currently level 5 (Goldenfields).
- **Show every d20 roll and math** for NPCs, PCs, monsters, contested checks. Josh prefers transparent tactical play over cinematic hidden resolution.
- **Use the Nightstone map grid** when combat matters. Each square is 5 ft. Large mounts occupy 2x2 squares.

8.3 Player characters — current state (level 5 at Goldenfields)

Player	Character	Class / build	Current role / arc
Josh	Alphie J. Roane	Human Wizard 5, Divination (table-canonical 2014 build).	Cider/hospitality noble. Recent levitate from Zephyros. Drank/wandered/recon'd at Goldenfields. Apologised to Wren. Must be steady.
Talia	Wren	Half-Elf Bard 5 (College of Lore from level 3).	Slow-burn romantic interest for Alphie. Helped Miros with grief / Rillix. Accepted apology but trust dented.
Ben	Dorin Stonebrook	Hill Dwarf Cleric 5, Life Domain.	Moral anchor. Met Zi Liang and Darovik. Sees weak command discipline at Goldenfields.
Romi	Kella Darkhope	Human Rogue 5 / Thief (rebuilt as PC at Bookmark 6 from Spy stat block).	Practical, wary. Suspicious of Shalvus. Kinship/banter with Alphie, not romance.

Outstanding mechanical reconciliation

There is an unresolved 2014 vs 2024 ruleset question for Alphie. Earlier table treated him as 2014 Divination Wizard. D&D Beyond screenshots showed 2024 Evocation. **Decision required before next combat.** Default unless told otherwise: 2014 Divination.

8.4 Special NPC assignments (current)

Player	Special NPC	Source starting location	Notes
Josh	Lifferlas	G6 grove of trees	Awakened tree, oldest living resident. Not physically with Alphie unless moved in play.
Talia	Oren Yogilvy	G8 outside the inn	Halfling musician, fond of Goldengulp. Player should run him during battle.
Romi	Zi Liang	G7 Harvesthome Abbey	Acolyte of Chauntea, frustrated about weak defence leadership.
Ben	Miros Xelbrin	G8 inside the inn	Innkeeper. Grieving after news of parents. Reunited with Rillix.
Set aside	Naxene Drathkala	G8 stable house	Watchful Order / Lords' Alliance mage. Unused special NPC unless needed.
Set aside	Shalvus Martholio	G8 inside the inn	Zhentarim spy. Source special NPC but not assigned.

8.5 NPCs and threats currently active

In Goldenfields

- **Sevembra Tumbleleaf** — halfling druid, Emerald Enclave, runs Earth Mother's Bounty seed shop. Met by Alphie; cider toast offered, seeds received.
- **Darovik** — abbot/senior figure at Harvesthome Abbey. Kind, conflict-avoidant. Dorin sees that kindness is not preparation.
- **Darlow and Tilbee** — old black bears at the Abbey. Mooching, no danger. Use for colour.
- **Strog Thunderblade** — HQ at Goldengulp Brewery / Dragon's Spire. Captain. Important future contact but should be discovered naturally.
- **Lysa** — Northfurrow's End server/staff. Practical, discreet. Table-canon (not source). Now important; Alphie spilled emotionally to her on the night recon.

In Nightstone (still active background)

- **Morak Ur'gray** — rescued, running Nightstone recovery. Holds restitution note. Trusts Alphie cautiously and practically.
- **Sydiri Haunlar** — alive, acting security authority. Trusts party. Maintains order.

- **Alara Winterspell** — alive. Young guard. Brave. Helped rescue/defence.
- **Torem Breck** — alive. Broken arm. Gatehouse / watch support.
- **Kaelen Zam** — alive. Recovered from head wound after Dorrin's healing.
- **Lady Velrosa Nandar** — dead. Honoured in keep. Funeral/rites still owed.

Allies / former allies elsewhere

- **Xolkin Alassandar** — alive. Left with Seven Snakes. Kept oath. Still dangerous. Still emotionally tied to Kella.
- **Joren, Pell, Maks, Tessa, Hask** — Seven Snakes used during defence. Left with Xolkin unless Marcus threads Joren back in.
- **Rond Arrowhome** — alive. Returned to Ardeep. Horn relationship established.
- **Zephyros** — cloud giant wizard, NG, eccentric, lonely, kind. Now genuinely fond of Alphie. Gave him a hospitality magic notebook. Will magically correspond later. Headed for the Moonshaes after dropping the party.

Loose hostile threads

- **Hark** — goblin boss. Alive. Left by west stream tunnel. Kept terms.
- **Two ogres** — alive in Dripping Caves. Fed six horses. Not pursuing now; future danger possible.
- **Gum-Gum** — released with food. Publicly credited by Alphie. Not active hostile unless she returns.
- **Nightstone goblins** — possibly some scattered. Don't overstate exact count without checking source.
- **Ear Seekers** — defeated/routed. Gurrash and Norga dead. Force no longer coherent.

Dripping Caves status (closed)

Source-correct cave threats (Hark, two ogres, goblin clan, captive villagers, natural chimney) were resolved through negotiation and the horse-trade with the ogres. Six Nightstone horses lost to ogres. No cave combat. Villagers rescued; Morak alive; Hark/goblins left under safe passage.

Miros Xelbrin (Goldenfields delivery quest)

Adult son of Lathan and Melantha Xelbrin. Lives in Goldenfields. Ran the inn (Northfurrow's End). Now received news of his parents' deaths from Wren. Reunited with Rillix. Clean hour to grieve respected.

Rillix the tressym

Ash-grey tressym with darker stripes, green-gold eyes, feathered wings. Suspicious, dignified, judgmental. Recognised the name 'Miros' when Wren said it. Travelled in apple crate with lambswool lining. Now reunited with Miros at Goldenfields.

8.6 Goldenfields locations (G1–G20, source-canon)

Area	Source-canon summary	Current table use
G1 Gatehouse	Magnificent stone gatehouse carved with Chauntea imagery. Arrow slits, inner/outer double doors. Searches for vermin/crop threats.	Party entered through here. Guards searched/processed visitors.
G2 Watch Posts	Parapets, pagodas, gongs, stairs. Alarm depends on guards reaching gongs. Wall 60 ft outside, 20 ft inside.	Alphie recon noted gong access routes and stair bottlenecks.
G3 Earth Mother's Bounty	Seed shop north of Chauntea statue. Run by Sevembra Tumbleleaf, halfling druid / Emerald Enclave.	Alphie met Sevembra, offered cider toast, received seeds.
G4 Grain Towers	Squat stone towers storing grain.	Alphie identified as critical targets during night recon.
G5 Livestock Fields	Oxen / cattle and pens for sheep / chickens / turkeys / pigs. Shalvus is a new shepherd / Zhentarim spy.	Party met Shalvus. Alphie observed table-canon suspicious night recon.
G6 Town	Concentric half-ring longhouses around central square. Workers commoners. Tree grove south of town has Lifferlas/treants.	Party moved through town. Not yet fully met Lifferlas in-character.
G7 Harvesthome Abbey	Chauntea abbey. Statues, stained glass, prayer bells. Darlow / Tilbee bears. Darovik. Zi Liang.	Dorrin met Zi and Darovik. Bears appeared.
G8 Northfurrow's End	Three-story inn, stable house. Miros, Goldengulp, performers, Oren. Naxene above stable house.	Central party base. Miros grief scene. Housebox / lodging / baths / table-canon Lysa.
G9 Goldengulp Brewery / Dragon's Spire	Brewery, warehouse. Captain Strog Thunderblade HQ. Bronze dragon history.	Not yet properly explored. Important future source location.
G10 Freshwater Spring	Natural spring and small lake feeding rice paddies. Frogs at night.	Can be used for local colour and tactics.
G11 Rice Paddies	Water-filled furrows for rice.	Not yet explored.
G12 Vegetable Gardens	Carrots, onions, squash, tomatoes, potatoes, radishes, etc.	Not yet explored.
G13 Wheat Fields	Nearly half of tilled earth. Important attack terrain.	Alphie mapped as tactically important.
G14 Herb Gardens	Western wall herb gardens with druids / cottages.	Not yet explored.
G15 Orange Orchard	Orange trees northwest of wheat fields.	Potential Roane / fruit trade resonance.
G16 Apple Orchard	Famous ageless tart apple orchard. Young treants guard it.	Alphie/Wren dream used apple orchard imagery. Source-canon orchard exists.
G17 Corn Field	Tall corn by end of summer.	Not yet explored.
G18 Barley Field	Feeds Goldengulp production and export.	Connects to brewery/economy.
G19 Hops Field	Hops for beer. Workers live nearby.	Not yet explored.
G20 Pumpkin Patch	Large firm pumpkins. Worker house nearby.	Not yet explored.

8.7 Goldenfields mood — source correction

Goldenfields should not be broadly anxious. The earlier giant probe has not changed the public mood much because residents place great stock in the strength of the outer defences and militia. The settlement feels confident, routine, busy, and maybe dangerously complacent. Individuals can be worried (Zi Liang, perhaps Dorrin, Kella, Alphie, some scouts or workers), but the public mood is not fear. It is trust in walls, food systems, militia, and routine. Don't have everyone act like they know an attack is imminent unless they learn

it in play.

8.8 Table-canon additions at Goldenfields

Element	Status / caution
Lysa	Northfurrow's End server / staff member. Practical, discreet. Not source. Now important table NPC.
White Horse Blue-Mane stable	Stable organisation label used for the party's horses/wagon.
Exact room/meal/bath prices	Table-canon economics. Useful for accounting, not source.
Roane family connection to Goldenfields	Plausible table-canon: Uncle Alfred Roane may know Darovik / Goldenfields hospitality folk.
Sevembra having met / heard of Alfred Roane	Plausible table-canon. Don't overstate as source.
Shalvus night parchment / sightline recon	Extrapolated from his spy assignment. Useful but not source text.
Alphie's Goldenfields tactical advantage	Earned from night recon and high rolls. Table mechanical benefit.
Miros / Rillix grief scene	Quest-linked story beat from Nightstone. Emotionally important. Table-driven.

8.9 Recent in-game timeline (current arc)

Sequence	What happened
Zephyros tower — Day 1	Party entered Tower of Zephyros. Cider gift accepted. Major wizard conversation about runes, Old Ones, Nightstone, cloud giant raid as signal not random, standing stones as ancient markers, Goldenfields warnings. Zephyros agreed to teach Alphie Levitate. Wren clean-hour song scene. Kella sky-watch boundary scene. Party slept.
Zephyros tower — Day 2 morning	Dorrin shared ambiguous dream (hill, grain on fire, giant footprints, child standing in a footprint, unafraid). Alphie admitted feelings for Wren to Dorrin. Dorrin gave counsel and conditional blessing. Hospitality magic experiment. Zephyros gave Alphie a small notebook. Promised correspondence.
Zephyros tower — Day 2 afternoon (Bookmark 7 pause)	Dorrin/Zephyros hospitality magic theology scene chosen. Alphie listens. Ben gets spotlight.
Zephyros tower — Day 2 night	Alphie finishes scribing Levitate. Possible Wren or Kella scene. Sleep.
Day 3 — Unfriendly Skies	Source beat. Resolved en route.
Goldenfields arrival	Party entered gate. Source corrections around gatehouse / search / mood. Met Sevembra at Earth Mother's Bounty.
Shalvus first contact	Alphie asked Shalvus for directions to Miros. Kella/Romi nat 20 read identified concern. Alphie possibly poked a bear socially.
Stables	Alphie and Kella settled horses / wagon. Wren / Dorrin took Rillix / news inside.
Miros grief	Miros received news of his parents' deaths from Nightstone and reunited with Rillix. Clean hour, grief held respectfully.
Inn logistics	Lysa handled shared room, supper, hot baths, lock deposit, housebox for restitution gems / note.
Alphie drinking episode	Secret drinks, levitate escape, cider from wagon, night walk. Eventually turned into recon and emotional spill to Lysa.
Night recon	Alphie mapped Goldenfields. Earned tactical advantage. Noticed alarm/gong bottleneck. Observed Shalvus suspiciously near livestock fields.
Breakfast repair	Alphie cooked Nightstone breakfast round two. Told party about recon. Wren named hurt / trust dent. Quiet signal established: 'I need quiet.'
Spotlight correction	Marcus gave Wren / Oren, Kella / Shalvus, Dorrin / Zi / Darovik proactive scenes not centred on Alphie.
Alphie long rest	Alphie slept to clear exhaustion while others had scenes.
Wren apology	Alphie woke, asked Wren downstairs, apologised. Wren accepted. Trust dented, not broken. Asked for steadiness.
Bookmark 9 (current)	Everyone asleep in shared room at Northfurrow's End after apology. Alphie dreams of Wren in apple orchard.

8.10 Current IG scene anchor

Bookmark 9. Late night in the shared room at Northfurrow's End, Goldenfields. Party asleep. Alphie has cleared exhaustion. Apology to Wren accepted but trust dented. Goldenfields is confident and routine, not openly tense. The party has useful but incomplete information about Shalvus. Dorrin has met Zi and Darovik. Wren has supported Miros and met Oren. Kella is watching Shalvus. Special NPC assignments locked: Josh/Lifferlas, Talia/Oren, Romi/Zi Liang, Ben/Miros. Source spoilers remain DM-private. Continue with the next morning unless Marcus has a night event.

9. Layer 3 — Inventory, Money, Horses, Relationships

9.1 Party money and assets (Goldenfields)

Category	Amount / item	Notes
Party pool	39 gp, 9 sp	After room, supper, hot baths, lock deposit.
Alphie personal coin	0 gp	Broke due to horse debt / restoration duties.
Wren personal	22 gp, 5 sp	From last clean tally.
Dorin personal	31 gp	From last clean tally.
Kella personal	14 gp, 8 sp, 5 cp	From last clean tally.
Total liquid	108 gp, 2 sp, 5 cp	Party pool + known personal funds.
Housebox	2 x 100 gp gems + Nightstone restitution note	Stored at Northfurrow's End under 'Alphie Roane — Nightstone restitution items'.
Potion	Potion of Heroism	Held by Dorin. Originally Morak's. Permission until roads safe.
Trade goods	2 Roane cider casks + 6 sample bottles	Casks in wagon / stables. Samples brought for Miros / trade.
Gear	Dwarf chain mail and helm	Nightstone chest / safekeeping / salvage asset.

9.2 Horses, wagon, stables

Item	Status
Sace	Horse, stabled at White Horse Blue-Mane.
Marrow	Horse, stabled at White Horse Blue-Mane.
Vesper	Kella's horse name locked as Vesper. Stabled at White Horse Blue-Mane.
Wagon	Under cover, canvas down, casks lashed.
Stable routine (Alphie)	Thoroughly watered, cooled, brushed. Checked hooves / legs / harness. Delayed oats. Asked stablehand to check cask lashings.
Stable payment	Already paid earlier from party money / Kella interaction. Exact prior accounting incorporated into party pool state.

9.3 Cider locked count (Bookmark 6 onward)

- 2 casks given to Morak for Nightstone supper.
- 2 casks remaining in wagon: 1 x 20L Roane dry apple cider; 1 x 20L Roane pear-apple cider.
- 6 sealed sample bottles, 750ml each.
- 1 small bottle gifted to Zephyros, currently on second-floor table behind sleeping-owl bookend.
- Cider casks have survived giants, goblins, ogres, cloud-stairs, and the tower lift. Marcus jokingly logged: *CIDER CASKS — SURVIVING SINCE NIGHTSTONE*.

9.4 Alphie's hospitality notebook (Zephyros gift)

- Small leather-bound notebook, deck-of-cards sized.
- Gifted by Zephyros at Tower.
- Contains summary of cloud hospitality experiment.

- Zephyros may send additional pages later (correspondence promised).

9.5 Levitate spell (Alphie)

- Half-scribed after Tower Night 1.
- Completed Night 2 at Tower.
- Materials provided by Zephyros.
- RAW cost / time waived or covered by Zephyros as DM table ruling.

9.6 Nightstone obligations still active

- **Horse restitution:** 6 horses lost (4 draft, 2 riding). 500 gp agreed restitution. 25 gp paid immediately. **475 gp remains owed** by Alphie / House Roane.
- **Restitution documents:** Sealed Roane restitution note; relief letters to House Roane / Daggerford contacts for replacement horses, timber, grain, bridge supplies, nails / canvas, labour / support.
- **Nightstone recovery:** Rebuilding, bridge repair, grain / timber / horse replacement, Lady Velrosa's funeral, Morak and Sydiri managing village.
- **Name request:** Alphie asked Morak to tell travellers four names — Alphie Roane, Wren, Dorrin Stonebrook, Kella. *Not as heroes. Just by name. For his father.*

9.7 Relationship state — current

Relationship	Current state
Alphie + Wren	Slow-burn romantic arc. Wren cares; accepted apology. Trust dented by drinking / disappearing. She wants steadiness, not grand gestures. Alphie has Dorrin's conditional blessing. Goldenfields first. Wren has not declared feelings yet.
Alphie + Kella	Kinship / banter / practical trust. Kella helped with deposit / stables. No romance. Romi explicit: not now, not in three sessions, not at Goldenfields. If Alphie reaches romantically, Kella redirects; if he persists, she grows colder. Locked.
Alphie + Dorrin	Spiritual / practical party trust. Dorrin notices but doesn't over-comment. Dorrin gave conditional blessing on Wren and promised to call Alphie out if he acts foolishly.
Wren + Miros	Wren helped deliver grief and Rillix. Should not become Wren's endless emotional burden.
Kella + Shalvus	Suspicion and possible mirror / foil. Romi chooses how Kella responds. Marcus should not force spy-identity conflict.
Dorrin + Zi Liang	Shared concern about Goldenfields readiness. Zi is abrasive / right; Dorrin may support without taking over.
Dorrin + Darovik	Respectful but concerned. Darovik kind / conflict-avoidant; Dorrin sees that kindness is not preparation.
Alphie + Xolkin (offscreen)	Working alliance under explicit terms. Xolkin sees Alphie as serious, word-holding, intelligent. Gave a personal undertaking re cave assault. Wrote a 'Nightstone is expensive' report.
Kella + Xolkin (offscreen)	Xolkin in love with her per source. She remains professionally independent. She vouched for Alphie in front of him.

9.8 Player table boundaries (locked)

- Josh controls Josh / Alphie only. Talia controls Wren. Ben controls Dorrin. Romi controls Kella.
- Marcus drives the world, not player choices. Marcus opens doors, doesn't write other players' lines.
- **No PvP. No party theft. No secret betrayal arc unless everyone opts in. Kella is not a DM betrayal device.**

- Relationship scenes are player-led. Wren romance thread, if earned. Kella kinship thread, not romance. No love triangle.
- Marcus sets up conditions but does not script Wren / Kella responses. Talia and Romi decide their characters' emotional movement.
- Josh once imagined a possible double wedding (Alphie/Wren and Dorrin/Kella). Logged as Josh fantasy, not campaign plan. Romi: Kella is not getting married in this campaign. Ben: Dorrin could theologically consider marriage, but Kella specifically is Romi's call.

10. Layer 3 — Historical Chronology (Chapter 1)

Quick-reference summary of the Nightstone arc that brought the party to Goldenfields. Useful for recall during play and for the app's timeline view.

10.1 Cart ride and arrival

- Three hours by cart, Sace pulling. **Second of Eleint, 1493 DR (Year of Three Ships Sailing)**, late afternoon.
- Arrived to Nightstone with bell ringing wildly, drawbridge down, two worgs feeding on a dead dog in the village square.
- Alphie threw a copper coin to distract worgs (rolled 13 vs DC 12). Party moved into cottage 4A.

10.2 Inn investigation

- Cottage 4A: ransacked, child's wooden horse toy, goblin footprints, no bodies. Family fled, not dragged.
- Inn: Alphie found Morak's letter, iron hammer token, locked chest in 8C.
- Wren saw goblin Gum-Gum in kitchen looting; Wren cast Sleep, Dorrin tied her to fireplace leg.
- Upstairs sweep: rooms 8D / 8E empty. Room 8F (southeast): Kella hiding.

10.3 Kella exposed and conditional alliance

- Alphie nat 20 + 5 Investigation = 25. Deduced Kella's survivor story was false.
- Alphie Insight 18: she will betray when useful, currently cooperating for self-interest.
- Forced disarm: hand crossbow, short blade, boot knife taken; snake remained.
- Terms set ('the polite leash'). She stays visible, no sudden moves, no secret messages, treated as specialist not prisoner.

10.4 Morak's chest and potion

- Dorrin Strength 18 success. Contents: dwarf-sized chain mail; dwarven helm; 45 gp; two 100 gp gems; golden magical potion.
- Detect Magic ritual later identified the potion as Potion of Heroism (1 hour: 10 temp HP + Bless without concentration).
- Currently held by Dorrin.

10.5 Gum-Gum interrogation and release

- Kella translated. Alphie Persuasion 19 success.
- Revealed: goblins from **Dripping Caves**, ~1 mile north; goblin boss **Hark**; villagers captive; **Morak alive**; ogres present and hungry; Beedo and Vark ringing temple bell.
- **Alphie kept his word.** Released Gum-Gum with food via west gate.

10.6 Stable escape

- Stable contained 5 draft + 5 riding horses, tack on wall. Goblin Derp in hayloft.
- Bareback escape. Animal Handling all succeeded. Alphie/bay riding, Wren/smaller riding, Kella/dark riding, Dorrin/draft.
- Derp shouted 'BAD HORSE THIEVES'. Worg arrived too late. Party escaped over drawbridge.

10.7 Cold camp and watch 2 negotiation with Xolkin

- Cold camp ~half mile off main trail. Bell faded and stopped during journey.
- Watch 2: Alphie alone (kept watch to give companions long rest). Heard hoofbeats.
- Xolkin Alassandar (Bandit Captain) arrived with Seven Snakes.
- Three Persuasion rolls: 18, 19, nat 20 (23 total).
- **The agreement:** Ride together at grey light. Reach Nandar Keep first. If keep yields any survivor, Xolkin commits blades to cave assault. Personal undertaking: not break and run during the cave engagement.
- Dorrin's witness speech bound the alliance morally before Berronar Truesilver. Tessa: 'Heard, captain.'

10.8 Return to Nightstone, defence, and Dripping Caves

- Worg fight in Area 3 cleared. Two worgs dead. No allied damage.
- Stable securing. Derp killed by Alphie's thrown dagger (nat 20 + 4 = 24, critical).
- Timber retrieval and temporary footbridge at Area 11 placed.
- Kella crossed first to keep side; called for guards. Sydiri / Torem / Alara / Kaelen alive in great hall with Lady Velrosa's body.
- Public oath sworn in Nandar Keep: Alphie, Dorrin, Sydiri, Lady Velrosa's body, Xolkin, Kella witnessed.
- Level 2 milestone. Snake alarm protocol established.
- Ear Seekers spotted by Pell. Alphie nat 20 Perception saw orcs and Ardeep scouts.
- Nightstone defence: drawbridge raised, ranged kill-zone, horn for Ardeep elves.
- Orc battle: Alphie used Portent 4/5; killed Gurrash with Fire Bolt. Kella killed Norga. Dorrin healed Sydiri. Force routed.
- Rond persuaded (23): 8 Ardeep elves help cave rescue; chimney route revealed.
- Dripping Caves: 16-person coalition. South mouth pressure plus chimney extraction.
- Alphie negotiated with Hark (nat 20): villagers out south mouth, goblins out west tunnel, no captives, no bones, no southward movement.
- Alphie spoke Giant to ogres: traded 6 horses for villagers. Nat 20. **Villagers rescued. No cave combat.**

10.9 Return to Nightstone and breakfast scene

- Morak told the truth plainly. Goods returned. Recovery began.
- Restitution: 500 gp agreed. 25 gp paid. 475 gp owed.
- 2 casks of Roane cider gifted for Nightstone supper.
- Survivor gathering: 'Truth or tale' game. Alphie's goose. Wren's wedding ballad. Kella's magistrate's ledger. Trust building.
- Alphie quietly made breakfast next morning (cider oats, eggs, ham, weak black tea). Wren first down. Kella second. Dorrin third. **Breakfast was the scene.**

10.10 Goldenfields chosen over Bryn Shander / Triboar

- Three sad-news quests offered by Morak. Party chose **Goldenfields**: emotionally fitting, food / hearth / rebuilding theme, Rillix quest, fit for Wren / Dorrin.
- Tower of Zephyros appeared the day after quest acceptance. 72-hour journey.

11. Layer 3 — Style Corrections Locked

These corrections were made repeatedly at the table. They should be enforced on resumption. The app should also include audit warnings for these drift patterns.

Problem to avoid	Corrective behaviour
Everyone speaks in perfect speeches	Use shorter, messier, more ordinary dialogue. People pause, joke badly, miss things, or say nothing.
Everyone comments on every beat	Only present / involved characters speak. Let silence happen.
Other PCs are flawless	Do not assign flaws. Give pressure that lets players reveal flaws through choice.
Alphie is narrative centre of gravity	Give proactive scenes to Wren / Kella / Dorrin and let their players lead.
DM spoils source structure	Keep encounter routes, triggers, and monster setup behind the screen.
NPCs know too much	NPCs only know what they reasonably saw, heard, or were told.
No consequences	Apply normal 5e and social consequences: exhaustion, trust dents, missed info, costs, NPC reactions.

11.1 Specific style notes

- **Avoid overusing:** ledger, file, record, noted, witness, paperwork language. These have become cringe as character shorthand. Alphie can be noble and careful without sounding like a clerk every time. Kella can be dry without 'file updated' jokes.
- **Current preferred Alphie mode:** warm, precise, emotionally honest, lightly witty, not performative, grounded.
- **Current preferred Kella mode:** sharp, perceptive, dry, boundary-setting, not romantic, not 'spy cliché'.

11.2 Source-vs-prompt corrections to preserve

- Nandar Keep Area 14a has four surviving demoralised **human guards** (Sydiri, Torem, Alara, Kaelen), not goblins.
- Hark at Dripping Caves is negotiable per source.
- Seven Snakes: Xolkin + six bandit subordinates. Tessa and Pell are DM-canon table additions.
- Wren's spells: Sleep, Healing Word, Faerie Fire, Dissonant Whispers. **Not** Thunderwave.
- Bell was ringing in Nightstone but faded and stopped during journey to cold camp.
- Mysterious hooded observer drift: **not canon. Drop it.**
- Dorrin's dream is table-canon, not source.
- Tower of Zephyros: floats 1,000 feet overhead (not 400). Stairs are made of cloud, not stone. Zephyros does not descend to the road; characters climb first. He greets after they enter the first floor, descending from the second floor using levitate. Robe is purple with gold stars.
- Tower contains an aerie with four griffons; 1d4 present at any time. Party hasn't visited.
- Tower travel to Goldenfields: 72 hours / 3 days. Source-canon Day 3 event: **Unfriendly Skies.**

12. App Design Handover

The next chat will vibe-code a single-file web HTML app. The app should operate as a three-layer continuity dashboard, session manager, timeline, character tracker, and prompt generator. Designed for Windows Chrome and Android Chrome, single-file MVP.

12.1 Goals and constraints

Requirement	Description
Platform	Web-based HTML/CSS/JS. No backend required for MVP. localStorage persistence.
Devices	Windows Chrome desktop + Android Chrome mobile. Mobile-first responsive.
Core UX	Three layer tabs: OOG, OG, IG. OG and IG layers need richest detail.
Data model	Scenes, characters, timelines, relationships, assets, money, rules / corrections, bookmarks, prompts.
Continuity safety	Prevent layer bleed. Every fact has a layer + canon status.
Resume support	Generate clean resume prompts for new chat windows.
Audit mode	Show warnings: source-spoiler risk, prestige drama drift, player agency violation, NPC omniscience, untagged fact, alcohol / consent escalation.
Persistence	localStorage with import / export JSON. Simple file-backed bring-your-own-device.
Frameworks	None for MVP. Plain HTML / CSS / JS. Single file preferred. Optional later: minimal libraries.
Theme	Dark mode default. Large touch targets. Readable typography. Sticky layer switcher.

12.2 Suggested information architecture

Screen / Tab	Purpose
Home / Dashboard	Current layer states. Next likely scene per layer. Quick resume prompt buttons. Unresolved issues list.
Layer Switcher	Prominent OOG / OG / IG tabs. Colour-coded. Show current date/time per layer.
Timeline	Chronological events per layer. Filterable by character, session, date, canon status.
Characters	Profiles for Josh / Romi / Ben / Talia / Marcus / Bast (L2) and Alphie / Wren / Kella / Dorrin / NPCs (L3).
Relationships	Romantic / friendship / trust arcs. Boundaries. Unresolved tension. Private vs public knowledge.
Scenes	Scene cards: title, time, location, participants, summary, status, next prompts.
Assets & Money	IG party coin / items. OG property / resources. Strict separation.
Rules & Corrections	Less prestige drama, agency rules, source accuracy, alcohol / consent safety, table style.
Prompt Builder	Generate prompts for continuing a scene, recapping, auditing, or coding.
Sourcebook Guard	List source-canon vs table-canon elements. Warn against spoiling DM-private info.
Audit Mode	Toggle that surfaces all flagged drift / risk warnings across the dataset.

12.3 MVP data schema (JavaScript / JSON)

12.4 Canon status enum

- **source-canon** — from the published sourcebook (SKT) or otherwise authoritative.
- **table-canon** — established at the Dubbo table; valid going forward but not source.
- **player-choice** — established by a player's character action; binding on that character.
- **inferred** — reasonably deduced but not directly confirmed.
- **unresolved** — open question; do not rely on either way.
- **retconned** — previously canon, now removed (e.g. mysterious hooded observer).
- **DM-private** — known to Marcus / DM only; do not include in player-facing narration.

12.5 Audit-mode warnings to implement

- Player agency violation (NPC made a player choice; DM scripted a player line).
- Source spoiler risk (player-facing narration leaks DM-private info).
- Prestige drama drift (perfect dialogue, omniscient NPCs, articulate-everyone).
- Alphie-centred narration (Alphie is in every scene's centre of gravity).
- NPC omniscience (NPC knows something they could not have seen / heard / been told).
- Layer bleed (fact tagged with one layer referenced as if true in another).
- Untagged fact (a fact lacks layer or canonStatus).

- Alcohol / consent escalation risk (romantic step taken under significant alcohol; missing consent moment).
- Unresolved mechanical state (rules question still open before next combat).

12.6 Interaction requirements

- Each scene card displays: layer, date / time, location, participants, summary, current state, next likely actions, unresolved threads.
- Every fact has a canon status from the enum above.
- **'Generate Resume Prompt'** button composes a concise handover for the selected layer or scene.
- Audit Mode is a toggle with checkboxes for each warning class.
- Mobile-friendly cards. Sticky layer switcher. Collapsible sections. Search / filter bar.
- Simple CSS. Large touch targets. Dark mode. Readable typography. Used on Android Chrome while roleplaying.

12.7 UX principles

- **One screen, one job.** Don't pile multiple layers' content into a single view without clear divider.
- **Layer colour coding.** Suggest: OOG = neutral grey; OG = warm gold/amber; IG = deep indigo.
- **Quick resume button** always reachable from header.
- **Edit-in-place** for scenes and facts. Avoid modal-heavy flows.
- **No surprise data loss.** Auto-save to localStorage. Manual export prompts JSON download.

13. Resume Prompts (ready to copy into new chats)

13.1 Resume L2 OG — Saturday morning after Friday hang

Resume Level 2 OG simulated table. It is Saturday 9 May 2026 morning at 92 Lakeside Circuit, Dubbo. Josh, Romi, Ben, and Talia stayed over after Friday dinner, games, pool, spa, and late-night sleepover. Romi and Josh were privately intimate overnight and are not pretending it did not happen, but Romi wants no halfway declaration or breakfast-table performance. Tuesday sober coffee remains the real follow-up. Ben and Talia are awake/tired and likely to tease gently if Josh overperforms. Marcus was not at the hang and D&D is at 1pm today. Josh has started explaining the Javabot/coffee machine and kitchen gear, and Romi has said to try less and cook breakfast. Continue realistically, with ordinary awkwardness, humour, and boundaries.

13.2 Resume L3 IG — Goldenfields Bookmark 9

Resume Level 3 in-game Storm King's Thunder from Bookmark 9. Everyone is asleep in the shared room at Northfurrow's End after Alphie's apology to Wren. Alphie has cleared exhaustion. Goldenfields is confident and routine, not openly tense. The party has useful but incomplete information about Shalvus. Dorrin has met Zi and Darovik; Wren has supported Miros and met Oren; Kella is watching Shalvus. Special NPCs assigned: Josh/Lifferlas, Talia/Oren, Romi/Zi Liang, Ben/Miros. Keep source spoilers DM-private. Continue with the next morning unless Marcus has a night event.

13.3 Style correction prompt

Less prestige drama mode please: use realistic table pacing, shorter dialogue, awkward pauses, fewer perfect one-liners, no omniscient NPC knowledge, no taking away player agency, and meaningful but not melodramatic consequences.

13.4 Hard reset prompt (when drift is bad)

Pause. Reset to the most recent canon. Confirm: which layer are we in (OOG / OG / IG), what is the current date and location in that layer, who is present, and what is the immediately previous beat. Then ask me to confirm before continuing. Do not improvise plot during this reset.

13.5 DM rules reload prompt

Reload Marcus DM rules: strict 2014 5e RAW. SKT is source of record. Don't roll for Josh/Alphie. Show every d20 roll and math. No fudging. 'Pause' is the safety word. Don't call me 'mate'. Less prestige drama mode. Don't make Alphie the centre of every scene; give Wren/Kella/Dorrin proactive beats.

14. Implementation Prompt for the New Vibe-Coding Chat

Paste this directly into the new chat alongside this PDF. It tells the next assistant exactly what to build.

Build a single-file web app in HTML/CSS/JavaScript for tracking a three-layer RPG continuity system.

Layers:

1. OOG real user — low detail.
2. OG simulated table — high detail. Current anchor: Saturday 9 May 2026 morning at 92 Lakeside Circuit, Dubbo, after Friday dinner / games / pool / spa / sleepover. Josh and Romi were privately intimate and Tuesday coffee remains planned. D&D is at 1pm.
3. IG in-game — high detail. Current anchor: Storm King's Thunder at Northfurrow's End, Goldenfields, late night after Alphonse's apology to Wren; party asleep; Bookmark 9.

App requirements:

- Responsive for Windows Chrome and Android Chrome.
- Dark mode, large touch targets, collapsible cards.
- Data stored in localStorage with export / import JSON.
- Tabs for Dashboard, Timeline, Characters, Relationships, Scenes, Assets, Rules, Prompt Builder, Audit Mode.
- Every fact / scene must have layer and canonStatus: source-canon, table-canon, player-choice, inferred, unresolved, retconned, DM-private.
- Include seeded data from the handover PDF I am providing.
- Include audit warnings for player agency violation, source spoiler risk, prestige drama drift, NPC omniscience, layer bleed, and unsafe alcohol / consent escalation.
- Include a Generate Resume Prompt button for current OG and IG states.
- Do not use frameworks for MVP. Plain HTML / CSS / JS is fine.

Style: calm, grounded, Australian English. Don't call me 'mate'. Concise commit-style explanations between code blocks. Build iteratively: scaffold first, then add tabs one by one, then add audit / prompts.

15. Open Threads Tracker

Master list of unresolved threads across both deep layers. Seed this directly into the app's Dashboard 'Unresolved' panel.

Layer	Thread	Status / next action
OG	Josh / Romi Tuesday coffee	Planned. Sober. No hosting. Major relationship follow-up.
OG	Saturday D&D after sleepover	Everyone may be tired. Marcus may notice vibes.
OG	Josh hosting / housemate idea	If pursued, use proper tenancy channels.
OG	Josh inheritance / Uncle Mal grief	Not processed. Future vulnerable coffee with Marcus or Lucas.
OG	Currawong / Parris Tech / gov job drift	Forced leave could trigger life planning.
IG	Goldenfields attack	DM-private source structure. Don't spoil.
IG	Shalvus suspicion	Alphie / Kella concerns; no public proof.
IG	Wren trust dent	Alphie needs steadiness, not grand repair.
IG	Dorin / Zi / Darovik defence concerns	Pressure point for next day or attack response.
IG	Lifferlas introduction	Josh's special NPC starts in grove. Not yet personally roleplayed deeply.
IG	Find Familiar — Ink the raven	Components still available. Ritual not yet completed.
IG	Letters to House Roane	Relief letters / restitution note pending response.
IG	475 gp horse debt	Owed to Nightstone. Track until paid.
IG	2014 vs 2024 Wizard ruleset reconciliation for Alphie	Decision required before next combat.
IG	Tower of Zephyros correspondence	Zephyros may send hospitality magic notebook pages later.
IG	Lady Velrosa funeral / rites	Owed at Nightstone.
IG	Snake alarm protocol	Active. Torem holds. One plain message north only.
IG	Ardeep horn relationship	Active for captives / children / orcs. Not for politics.

16. Appendices

16.1 Quick character reference cards

Alphie J. Roane (current, level 5)

- Human Wizard 5, Divination (table-default).
- Noble background. House Roane, cider traders from Waterdeep hinterlands.
- Lawful Good. Speaks Common, Giant, Elvish.
- Personality: polite, scholarly, tactical, morally serious. Wants noble rank to mean service.
- Recent growth: learning not to rush emotional moments. Steady, not clever.
- Currently broke; carrying restitution note for 475 gp horse debt.
- Special items: small leather notebook from Zephyros (hospitality magic findings); has scribed Levitate.
- Familiar Ink the raven: conceptual; not yet summoned.

Wren (current, level 5)

- Half-Elf Bard 5 (College of Lore from level 3).
- Entertainer background. Chaotic Good.
- Spells (level 1 baseline carried up): Sleep, Healing Word, Faerie Fire, Dissonant Whispers. Not Thunderwave.
- Companion: Rillix the tressym (delivered to Miros at Goldenfields).
- Personality: warm, witty, observant, nervous-but-capable.
- Recent: sang a private working song at Tower; supported Miros's grief; wants steadiness from Alphie.

Dorin Stonebrook (current, level 5)

- Hill Dwarf Cleric 5, Life Domain.
- Acolyte of Berronar Truesilver. Lawful Good.
- Speaks Common, Dwarvish, Celestial, Giant.
- Personality: quiet, steady, moral, protective.
- Carries: Potion of Heroism (Morak's permission until roads safe).
- Recent: shared ambiguous dream at Tower; gave Alphie conditional blessing to pursue Wren slowly.

Kella Darkhope (current, level 5)

- Human Rogue 5 / Thief (rebuilt at Bookmark 6 from Spy stat block).
- Former Zhentarim. Now PC.
- Speaks Common, Goblin, Thieves' Cant.
- Personality: dry, observant, professional, slightly ironic.
- Recent: sky-watch boundary scene with Alphie (kinship not romance); helped with stables / housebox; watching Shalvus.

Josh OG profile card

- Josh Parris, 36, single, never married, Dubbo NSW.

- Senior Stakeholder Engagement Coordinator, Department of Regional NSW. Currently on forced leave until mid-June 2026.
- Parris Tech Services (~\$20k/month net). Currawong AI 40% equity. \$500k inheritance from Uncle Mal recent.
- Christian. Plays Alphie at Marcus's table. Hosts at 92 Lakeside Circuit.
- Currently: navigating private intimacy with Romi without performing it socially. Tuesday coffee planned.

Romi profile card

- 35, paralegal, divorced no kids.
- Plays Kella.
- Direct boundary-holder. Worldly warmth.
- Currently: privately intimate with Josh after Friday hang. Wants Tuesday coffee. No public announcement.

Ben profile card

- 32, vet at Macquarie Vet, single.
- Plays Dorrin.
- Quiet, deep friend. Stabiliser at the table.
- Currently: stayed over Friday. Tired but functional. Will tease Josh gently if needed.

Talia profile card

- 29, primary school teacher, partnered.
- Plays Wren.
- Sharp humour. Social pressure valve. Will call Josh on his shit.
- Currently: stayed over Friday. Will probably narrate the kitchen tour mockingly.

Marcus profile card

- 38, IT manager, married with two kids.
- DM. Best mate in Dubbo. Josh is godfather to one child.
- Currently: not present at Friday hang (family dinner). Will run D&D at 1pm Saturday.
- Voice: calm, grounded, slightly dry, owns mistakes openly.

Bast profile card

- Grey tabby, 4yo, RSPCA rescue, indoor-mostly.
- Sleeps on rumpus couch by day, foot of bed by night.
- Tolerates guests; ignores most of them.
- Tactical role: roaming neutral. Socially powerful by doing almost nothing.

16.2 SKT Bookmarks index

Bookmar k	Topic	Status
1	Cart ride / arrival / Nightstone first day	Closed.
2	Cold camp watch 2 / Xolkin negotiation	Closed.
3	Temporary bridge at Area 11 / keep contact	Closed.
4	Ear Seekers defeated / Ardeep elves committed / Dripping Caves next	Closed.
5	Dripping Caves rescue / horse trade with ogres	Closed.
6	Morning at Morak's inn / breakfast / Goldenfields chosen	Closed.
7	Tower of Zephyros Day 2 afternoon / hospitality magic	Closed.
8	Tower travel / Unfriendly Skies / arrival at Goldenfields / first day in town / drinking episode / breakfast repair	Closed.
9	Current. Goldenfields night settled after Wren apology. Party asleep at Northfurrow's End.	Active resume point.

16.3 Tactical reference (carry forward)

Key dice math (level 1 baseline; recompute for level 5 as needed)

- **Worg bite vs AC 12 (Alphie unbuffed):** hits on 7+, 70% hit rate, avg 10 damage. Alphie dies in ~1.1 rounds.
- **vs AC 15 (Mage Armor):** hits on 10+, 55% hit rate, avg 5.8/round, ~1.4 rounds. Mage Armor matters.
- **Sleep (5d8):** avg 22 HP pool. Vs 7-HP goblins, disables ~3 on average. Vs 26-HP worg, ~26% chance to drop. **Sleep is a goblin-killer, not a worg-killer.**
- **Ogre vs AC 18 (Dorrin):** hits on 12+, 45% hit rate, avg 11.7/round from 2 ogres = ~1 round to drop Dorrin. **Party cannot win an open fight against 2 ogres at level 1.** Mitigation: chokepoints, surprise, parley, staged engagement.
- **Stealth + chain mail:** Dorrin in chain mail = effective Stealth -3, fails ~70% vs worg passive 18. If stealth is needed, chain mail off Dorrin or out of detection range.

Spell guidance for the table (1st level baseline)

- **Mage Armor:** cast first thing each day Alphie expects danger. 8 hours. AC 15.
- **Shield:** reaction, +5 AC, hold for the moment Alphie would otherwise drop.
- **Sleep:** goblin clusters of 2+, before they act. Not on worgs, not on Xolkin, not on ogres.
- **Magic Missile:** named threats with AC 14+. Auto-hit 3d4+3.
- **Bardic Inspiration (Wren):** pre-fight on Dorrin or Alphie.
- **Faerie Fire (Wren):** multi-target fights. Grants advantage on attacks vs failed targets.
- **Bless (Dorrin):** fights expected to last 3+ rounds.
- **Guiding Bolt (Dorrin):** round 1, biggest enemy, advantage on next attack.
- **Cure Wounds (Dorrin, +3 from Disciple of Life):** out of combat or before retreat.
- **Healing Word (Dorrin, +3 from Disciple of Life):** bonus action, 60 ft, downed ally pickup.

16.4 Cloud / hospitality magic principles (Tower table-canon)

- Hospitality, not wealth.

- Welcome, not harm.
- Kindness extends to creatures with personhood.
- The cloud has cultural memory.
- The cloud responds to how it is asked.
- **Refused or substituted:** harmful items, lower-plane substances, mind-altering dangerous foods, things requiring cruelty (gorgon-milk cheese, mimic-tongue carpaccio, astral whale ambergris, death cheese, razorvine wine, baatezu blood wine, slaad-spawn caviar, beholder-kin jelly, etc.).
- **Produced freely:** material hospitality foods, Luiren spring cheese, greengage cider, mist cheese, scaled roast roc, Evermead, breads, fruits, meats, cheeses, fish, baked goods, teas, ales, Bytopian Blue, Elysian pears, Celestial caramel, aasimar-blessing honey, Ysgardian victory mead.
- **Produced cautiously:** ambrosia (one drop), elverquisst (ceremonial sip), solar nectar, starlight nectar, feywine raisins, dream-vapor soufflé, liquid sunshine, wyvern whiskey, marid-spiced coral fruits, phoenix-ash scones, shiftspice (a speck), axiomatic ice-water.
- **Edge cases:** Mechanus clockwork-biscuits (produced, food/art ambiguity); gravitational truffles (produced, slid uphill, do not repeat).

16.5 Zephyros lore (table + source)

- Cloud giant wizard, Neutral Good, eccentric, lonely, kind. 12th-level spellcaster.
- Uses Contact Other Plane to seek how to mend the ordning. Repeated failed castings damaged / altered his mind.
- Told by planar entities that the characters matter to restoring the ordning.
- Offers transport only; planar entities warned him against direct intervention.
- Will take party to Goldenfields, then depart for the Moonshaes.
- Carries giant staff of the magi. Wears billowy purple robe with gold stars. Has a giant-scale spellbook and journals.
- Table-canon: genuinely fond of Alphie as a student. Lonely and moved by courtesy. Sees the Roane cider gift as meaningful. Teaching Alphie Levitate under supervised access. Gave Alphie a small notebook of hospitality magic findings. Will magically correspond later. Thinks the cloud is possibly more than a mechanism.

Zephyros's advice about Goldenfields

- Watch grain.
- Watch priests.
- Watch walls.
- Watch sky.
- Watch the boy — Miros needs space to grieve.

Zephyros lore notes

- Nightstone's standing stone was ancient and not made by human, elf, dwarf, or giant.
- The cloud giant raid was not random cruelty. It was a signal.
- The stone fragment taken was likely the message; the broken village was the envelope.
- The villagers were collateral, which makes the cruelty colder, not smaller.

- Hill giants may be relevant because Goldenfields is a temple-farm full of food and hill giants are the hungriest caste.

17. Final Continuity Snapshot

If the new chat remembers only one thing, this is the discipline:

This continuity is about three nested layers of story and choice. The most important craft discipline is preserving agency while keeping timelines, relationships, and canon statuses clear.

One-line OG snapshot

Saturday morning after a wild but bounded Friday hang: Josh and Romi have crossed into a private romantic / intimate arc, but Tuesday coffee and group normality matter. Breakfast and D&D at 1pm are next.

One-line IG snapshot

Goldenfields appears safe and confident at night, but the party has seen cracks: Shalvus, weak leadership, complacency, and source-canon danger behind the screen.

One-line app snapshot

Build a continuity dashboard that can switch layers, prevent bleed, generate resume prompts, and flag style / source / agency issues.

Closing note

This document is dense by design. The next chat should treat it as authoritative seed data and not paraphrase it — quote canon facts as written. When in doubt, mark a fact **unresolved** rather than guessing. When the user uses 'less prestige drama mode please' as a correction switch, drop the polish, return to ordinary pacing, and let scenes breathe.
